Do you like reading books ? In our school, we read books for 15 minutes before classes every morning. At first I didn't like it, but now I love reading books. Why ? I'll tell you about it.

One day, my teacher told me to go to the library because I needed a book to read. So I went there. In the library I met Ms. Kimura. She showed me some books and talked about them. I borrowed one of them. It was a book about animals. It was very interesting. When I finished reading it, I visited the library again. Then I borrowed more books.

I had many experiences through reading books. In them I traveled to space and all over the world. I felt happy and sad with the people in the books.

Now I really enjoy reading books every day. In one year I read 50 books.

You can learn many things from books. Books can become your friends that are always with you. Please visit a library and read many books. (3秒)
